

Minaean SP Construction: World Class Projects thanks to its new World Class Strategic Partner

Minaean SP Construction Corporation

Minaean SP Construction Corp. is a Canada based company specializing in General Contracting for large infrastructure projects in developing and third-world countries. Minaean also provides Light Gauge Steel and Quik-Build Systems, along with specialty contracting services including EPC (Engineering, Procurement, Construction), as well as Design-Build capabilities for residential, commercial, industrial, healthcare, and hospitality sectors.

Minaean SP Construction is in the unique position to seek contracts for large-scale commercial and infrastructure projects in emerging / third-world nations in Africa, the Middle East and India.

A New Era In Global Projects

In 2015 Minaean reached agreement to become strategic partner of Shapoorji Pallonji Group. Shapoorji Pallonji Engineering & Construction now acts as the go-to partner on the ground working with Minaean Construction on projects around the world.

SP International's expertise in construction of housing, healthcare and hospitality, and its subsidiaries in ports, railways, refineries, renewable solar power, water purification etc. strengthen Minaean's opportunity to utilize its invaluable network in the Canadian market to conduct business development through the support of DAFTD, CCC and EDC. This provides a new roster of larger potential contracts (\$50 million or more per project) that are now available to Minaean SP Construction Corp.

Modular and Quik-Build Systems

Initially, Minaean Construction developed and utilized Light Gauge Steel (LGS) and Quik-Build systems in most of its trademark construction projects. The Company completed 500+ Modular Buildings and executed 20+ Projects using their proprietary LGS (Light Gauge Steel) System.

Minaean continues to provide these strong, affordable, ecologically sustainable structures as a solution to the mass housing shortages in developing countries and a range of conventional applications.

Government Backed (G2G) Large-Scale Projects

Minaean SP Construction's business focus going forward is to develop government-to-government (G2G) contracts with the support of CCC, which has a mandate to develop and execute contracts through Canadian companies as contractors.
