

MINAEAN 
CONSTRUCTION CORPORATION
AN AFFILIATE OF SHAPOORJI PALLONJI

MSP'S CEO MERVYN PINTO TOGETHER WITH THE SHAPOORJI PALLONJI BUSINESS DEVELOPMENT TEAM, HAS JOINED HANDS WITH PERKINS AND WILL FOR THE DEVELOPMENT OF THE HOSPITAL OF EXCELLENCE PROJECT IN LAMBAYEQUE, PERU.

Based on the needs expressed by Lambayeque Province, Minaean SP Construction Corp. submitted an Expression of Interest for construction of a 400 bed, US\$ 300 million budgetary value, "Hospital of Excellence" at Chiclayo city, Lambayeque province which was accepted and new release made by the governor on the 28th of January 2020. The land for the construction has been allocated and Memorandum of Understanding is under negotiation.

Perkins&Will is working to deliver the architectural program to the Government of Peru. Due to their working history with the Peruvian Ministry of Health (MINSA), they have a clear knowledge of not only their Code but also the preferred adjacencies between the Departments. All of the elements could be designed as a kit-of-parts which could ultimately create a model to be reproduced throughout Peru. Considering the current events Perkins&Will is infusing the strategy for future pandemics into the design and therefor the hospital could have the potential to become a model for Latin America and the world.

A general conceptual rendering of the proposed Hospital of Excellence provided by Perkins and Will.
