

## Center of Excellence Hospital, Zambia

The construction of “Center of Excellence Hospital” is high on the priority list of the Zambian Government. The Zambian government has shown its manifestation of entering into a Government to Government contract for this hospital project. With the financial capability, Zambian Government would be able to honor its commitments to Canadian or any other sovereign entity interested in financing the project. This neuroscience technical hospital will have various specialties in healthcare to fulfill local medical needs and to improve Zambia’s epidemic medical conditions.

Minaean SP Construction Corp. is in dialogue with MoH, Zambia for finalizing a concept proposal for submission to financing institutions for financing the project.
